Healthy Californians Through Quality Pharmacists' Care

CHANGES IN THE PHARMACISTS'
RECOVERY PROGRAM

As a result of the state's competitive bidding process, a new contractor has been awarded oversight of the Pharmacists Recovery Program (PRP).

The PRP was the direct result of legislation requiring the board to seek ways and means to identify and rehabilitate pharmacists whose competency may be impaired due to the abuse of alcohol or other drugs, or due to mental illness, so that pharmacists and interns so afflicted may be treated and returned to the practice of pharmacy in a manner which will not endanger the public health and safety.

The new contractor will be Maximus, Inc, and the program structure will remain largely unchanged. Please call 1-800-522-9198 today to learn more about the program and the services it provides.

The board would like to thank the dedicated staff from Managed Health Network, the previous contractor, for their commitment to the PRP.
